Experience

Machine Learning Engineer

2022 –

Apple · Siri, Apple Intelligence, Foundation Models

Graduate Researcher and Teaching Assistant

2020 – 2021

Worcester Polytechnic Institute

Software Engineer Intern

2019

Proofpoint

Software Engineer Intern

2018

Cloudflare

Education

M.S. Computer Science

2021

Worcester Polytechnic Institute

B.S. Computer Science, Cum Laude

2020

Worcester Polytechnic Institute

Projects and Publications

GNNs on social graphs

Modeling interactions between people in videos of social settings.

Image outpainting

Extending images with GANs, using residual connections for consistency.

Vision models for corrosion

Scientific measurement of corrosion samples, in collaboration with the U.S. Army Research Lab.

Robot swarms in augmented reality

Interactive methods for controlling robot swarms with voice and gesture.
